

## Cubicle Solutions for every requirement

Whatever the situation there is a four-sided cubicle solution to fit from our comprehensive range. A number of features make these solutions possibly the best on the market.

Pressalit Care cubicles provide a four-sided free-standing enclosure. The cubicles are supplied complete with tray and fittings and are ideal for corner or alcove installations. Our cubicles are available in 14 different sizes. Whether you need a replacement for a full size bath, or a compact cubicle to fit a small space, we can help.

### Strength

All panels are made from white powder coated aluminium with virtually unbreakable PETG obscure panels and polypropylene white panels, built to withstand being fallen against, with a ten-year guarantee against the panels cracking or breaking. The shower trays are made from Glass-Reinforced Plastic (GRP) and capable of loads up to 35 stone.

### Quality

Our cubicles are made to the highest specification; The doors have extra strong hinges. The door hinges have a unique locking mechanism, which keeps them in the open or closed position ensuring they always stay where you want them. The continuous magnetic door seal combined with our three-finned bottom door seal gives advanced water retention.

### Safety

All cubicles come with a full-length rear grab rail. Our trays have a grip-assisted deck pattern for extra security.

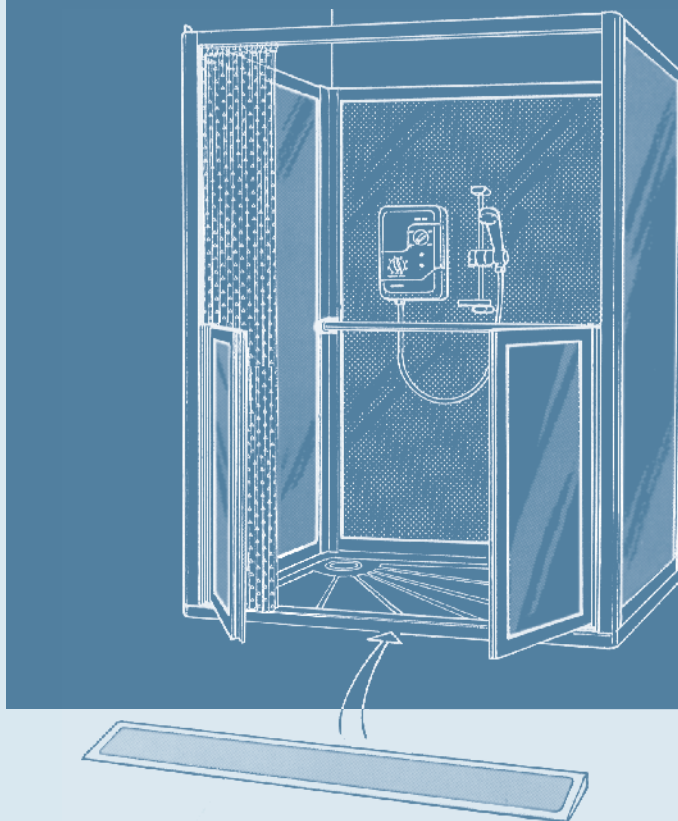

### Style

Our frames are finished in soft white to match the tray colour and have a soft edge rounded profile for safety and user appeal.

### Accessibility

Doors open inwards and outwards through more than 180 degrees, making the shower enclosure easily accessible, on foot or in a chair.

# ESL Cubicles

### Flexibility

Our very wide range means that we should have a shower facility to meet your needs. We can vary the standard components of the cubicle in many ways. For example, any full height panel – back or side – can be made half-height, and we can also fit irregular shaped, sloping ceilings. Standard half-height doors can be replaced with full-height or barn doors, and we have an optional top panel, if you require a completely enclosed shower.

### How do I choose the right solution?

**Choosing the right solution** is largely dependent on the space available in your bathroom and the placement of other sanitary ware and furniture in proximity to the cubicle.

Simply select the size that is most suitable and then decide on single panel doors or an upgrade to bi-fold doors. Top roof panels are available for a completely enclosed shower – with light if required.

### Materials

Manufactured from virtually unbreakable PETG & polypropylene panels encased in stylish and sturdy aluminium frames.

### Bespoke Options

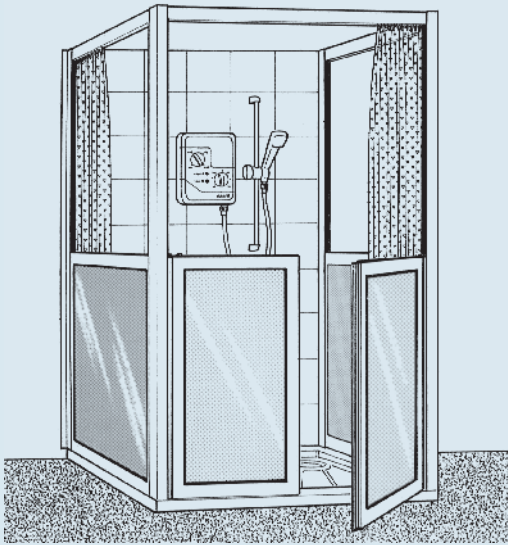

Pressalit Care Cubicle Solutions can be modified to suit your requirements. Please contact our sales team for more information.

### Guarantee 10 Years

Pressalit Care guarantees to remedy material and manufacturing defects for a period of 10 years from the invoicing date.

Please note that the electric shower needs to be ordered separately.

## SL601 Shower Toilet System for Cubicles

The shower toilet system has been designed to provide complete facilities – wash basin, toilet and shower – in situations where space is at a premium. It is ideal for providing en-suite facilities. For maximum flexibility, we have designed the shower toilet system to fit into any of

our cubicles with base measurements of 900 mm x 900 mm or over.

### The shower toilet kit comprises of the following

1 x Steel toilet support system (please note that 350 mm of space is required behind the wall on which the toilet is to

be mounted – access panels are provided as options to close this area off).

- 1 x Wall hung toilet and seat (please specify height when ordering)
- 1 x Cistern and lever
- 1 x Wash Basin
- 1 x Set of lever taps
- 1 x Stainless steel fixing screw kit
